

Welcome to the ultimate in modern luxury,
pure indulgence and innovative living,
welcome to Neater.

We are in the business of creating and building inspiring,
beautiful and enviable dream homes.

At Neater we strive to ensure a seamless process from design to
construction and ultimately to the finished project. Our architect
and 'in-house' building designers work closely with clients to
develop ideas, visions and even dreams into realities.

Every Neater project is built and finished by skilled tradespersons
under our direct supervision to ensure that we maintain our
reputation as Far North Queensland's leading Prestige Builder.

Neater are listed in the Queensland Government Department of
Public Works Register of Companies that hold PQC Status L2 and
are proud members of The Master Builders Association.

Who are we?

Established in 1982, Neater Constructions has come a long way since the days of drawing plans with pencils and building houses on little more than a hand shake. Today we have expanded into a multi-award winning company with trade knowledge, expertise and the resources necessary to hold a competitive edge over local and national industry contenders.

Currently the leading luxury home builders in Far North Queensland, Neater are extensively involved with the design and construction of prestige residential development at Port Douglas, Cairns, Mission Beach and Port Hinchinbrook with numerous commercial projects around North Queensland.

Nothing is out of reach when you choose to build with Neater...

Our exciting, innovative designs can incorporate everything from smart, auto controlled appliances to anti-fog mirrors, towel warmers, audio visual entertainment theatres and aquatic playgrounds with illusionary edges.

At Neater we believe that every project is special and unique in its own way.

We understand that for our customers it is not just a house, an apartment or a commercial development but rather a home, a lifestyle or a lucrative investment.

Scope of Projects

Neater's prestige residential designs vary from Tropical Balinese themes, plantation styles reminiscent of yesteryear, modern day dazzling Spanish or Mediterranean to state of the art contemporary.
